SAFE AND EFFECTIVE CARE

Tunstall Nordic AB and its subsidiaries ("Tunstall") is a leading Nordic supplier of safe and effective elderly care solutions and has not only the solutions for but also the knowledge of how to meet future demands. For us, safe and effective solutions is not only an end goal but also a description of our journey.

For Tunstall, care, technology and integrity are directly linked together. To improve the health and social care for both care givers and end users Tunstall has an ongoing development of products, solutions and concepts to both meet new technical and legal demands. All with a central focus on the protection of the integrity for the individual.

At Tunstall we make sure that all personal data is processed in a lawful, fair and transparent way. Only the needed personal data is processed and it is only used for the intended purpose and not kept for longer than necessary. We also make sure the personal data is kept up to date and only processed in a manner that ensures appropriate security to assure integrity and confidentiality.

The privacy aspect is implemented in everything we do, in all steps of the process. From when a new improvement idea arises, during its development until the future end of the process. Therefore, Tunstall can assure that during our journey to support a safe and effective care we will always keep our focus on what is most important for us – the care for the individual.
