**Tunstall Nordics – Environmental Policy**

Tunstall Nordics Management Group are fully committed to the protection of the environment, prevention of pollution, compliance with current environmental legislation and fulfilment of our compliance obligations.

Scope and context of this policy covers Tunstall Nordics whether it is in the office or at home based offices. The scope includes the design, installation and maintenance of products and services.

The context includes our environmental obligations to Employees, Customers, Suppliers, Contractors, Neighbors, Environmental Groups, Environment Agency and Local Council. The Environmental Management System (EMS) operated within Tunstall Nordics is designed to comply with the requirements of ISO 14001:2015. This policy is reviewed annually.

**Our key commitments are to:**

- Ensure that good environmental management is an integral part of our business culture by communicating the EMS policy to all employees.
- Strive to ensure that all employees, agency staff, contractors, are aware of the environmental impacts of our business and understand how we can work together in order to meet the needs of our business in a safe and sustainable manner. In this regard, we seek to provide leadership towards continual improvement.
- Report and audit our environmental performance as a means to improve accountability and to drive continual improvement of our EMS.
- Ensure that employees and other stakeholders are made aware of their individual responsibilities contained within our EMS by effective communication.
- Ensure that the relevant needs and expectations of Interested Parties are considered and met if deemed required.
- Maintain a high level of awareness of sustainability issues amongst our employees and integrate environmental management into training.
- Meet or exceed all relevant Nordic, European and International legislative and regulatory requirements and agreements.
- Ensure that goods and services are procured in a sustainable manner and encourage our suppliers and contractors to improve their own environmental performance.

**Plan to achieve our environmental objectives:**

- To optimize energy and resource consumption
- To optimize the amount of waste generated
- To optimize pollution and emission
- To re-use and recycle where possible (products & batteries)
